Team updates

Deb Fereday: All presentations are done

-The high school kids enjoyed the presentations and felt that they were being empowered by passing on the message

-Foudy mentioned the need for covered recycling storage

-Have some wrinkles that need to be worked out as we move forward

-Lunch room and big trash cans are going to prohibit us from fully maximizing the recycling program

Sandra King: Having issues in the lunch room as well but the kids will eventually learn the process. Currently they have to differentiate between food, trash and recycling

Lynn Swift: Moving trash cans next to the recycling bins has been a huge help

Suggestions by Mary Hart to share our program and the progress to Idaho Leads

Arlen commented that some of the principals do not want to take up his time with hauling the recycling.

Matt commented that we will continue to monitor this and if it becomes a problem then we will address it accordingly. Also, it was suggested that Arlen try to plan his school visits in conjunction with recycling pick up so that he is maximizing his time.
