

Board of Trustees

Policy 1070

Trustees In-Service Training, Expenses

It is in the interest of the district for all trustees to be aware and knowledgeable about issues involving education, the schools and their responsibilities. To these ends, the board encourages individual trustees to avail themselves of opportunities to expand their knowledge by attendance at appropriate conferences, workshops and conventions and will cause a budget to be provided for such attendance.

Reasonable and actual expenses will be paid for costs incurred for such attendance and trustees' expenses will be the same as those allowed for members of the staff in other sections of these policies.

Adoption:      First reading:              June 2013              Adopted
