#### School Calendar

In order to permit staff, students and parents to make plans for their own work and vacation schedules, the board shall adopt a school calendar for the forthcoming school year by February 1 of each year. Calendars for future years may also be established. The calendar will indicate the number of work days and holiday periods for staff members. The calendar adopted shall be consistent with existing statutes and State Board of Education rules and regulations. A committee will be formed to design the calendar and should consist of one parent and one staff representative from each school, one administrator, one student, one teacher's association representative, and one school board member.
