

Policy—3400

Students

Student Welfare

The board expects staff to conduct all school programs and operations in a manner that recognizes and supports the health and safety of students.

Each staff member must be in the classroom or at any other assigned station at all times when pupils are present or must make sure that another teacher or adult is temporarily in charge. Each staff member shall be alert to any physical hazards that may exist in the facilities, program or schedule of his/her school and report them to the principal. All safety rules and hygienic standards in the educational and activity programs of the school shall be enforced.
